Subject: Ponca Draw Down \*\*Update\*\*

**Attachments:** image001.png; Push to stores from Ponca wk 6-7-16 to 6-11-16.xlsx

DPOs-

Wanted to provide a couple updates that we have received:

- We only have a couple more weeks of PONCA inventory left:
  - Approximately 8.6 million dollars left to move, which is down from 25.4 million in total inventory 4 weeks ago.
  - Much of this decrease was due to normal draw down vs getting pushed out.
    - We have seen a 1.5 million dollar lift in store inventory since the push started.
  - All medications, <u>Including CIIs</u> are being pushed out to the stores:
    - Only stores on CSOS are receiving the Clls
    - Store will see product coming in that they do not need or ordered in the past
      - This is a necessary evil with the Ponca flush
  - Once Ponca is out of a medication, the medication reordering will switch to McKesson for future ordering.
  - I have attached the list of medications that are going to be pushed and focused on for this week.

Let me know if you have any questions.

Thank You!

Subject: Ponca Draw Down To Begin Today

To: ARx DPOs

From: Pharmacy operations

Date: June 2<sup>nd</sup>, 2016

# **Overview:**

 As you are your teams may already be aware, we now have begun the Ponca Warehouse Inventory reduction for the ARx stores.

 This process began a couple weeks ago in the EPS stores and was slowly introduced to the ARx stores over the last 2 to 3 weeks.

 Many of you have reported multiple stores receiving double Ponca orders as a result of this week's draw down.

This is due to the dials being turned up on more products to cause a larger purge of inventory.

 Any ARx store that pulls from Ponca will have their Generic order points adjusted to evoke a system generated Ponca order over and above a normal order.

 All ARx stores will begin to see a variable increase in items on their Ponca orders until Ponca is completely depleted.

### Action:

Please Alert Your ARx stores of this ordering change.

 It is imperative that the stores <u>DO NOT</u> negatively adjust their orders, on the Ponca items, as this will cause many potential issues.

Let me know of any potential issues that may arise.

### Thank You!
